Experience

Frontend Developer
Jun 2024 - today
Centro Nacional de Análisis Genómico (Barcelona, Spain)

・Developed a data portal for an EU Horizon 2020 scientific initiative involving 13 research centers across 11 countries, owning the full frontend lifecycle (design, implementation, testing, optimization, deployment) and building interactive visualizations for large-scale datasets.

・Built a full-stack content management system used as an internal dashboard and as the backend for the lab's public website. Redesigned the website with a modern, updated interface.

Frontend Developer
Oct 2022 - Sep 2023
Nauta Capital (Barcelona, Spain)

・Built a Customer Relationship Management tool from the ground up to connect startup founders with investors, including performance optimizations, and testing to improve reliability and speed.

・Maintained and delivered new features for a data-driven investment platform and its Chrome extension, integrating external data sources and improving usability for investment team.

Frontend Developer
Jul 2021 - Apr 2022
Mavon (Düsseldorf, Germany - remote)

・Developed the company's fully responsive landing page and website by transforming Figma designs into pixel-perfect, high-performance user interfaces

Translator
Sep 2016 - Dec 2020
Konet Tokyo Co., Ltd. (Tokyo, Japan)

・Translate international news video captions from English to Japanese at Japan Broadcasting Corporation

Dancer
Jan 2016 - Mar 2020
Oriental Land Co., Ltd. (Tokyo, Japan)

・Perform at shows and parades at Tokyo Disneyland

Education

JavaScript Full-Stack Bootcamp
May 2021 - Jul 2021
Barcelona Code School (Barcelona, Spain)

- Full-stack training on web and mobile development with JavaScript MERN stack and React Native

Bachelor in Policy Studies
Apr 2011 - Mar 2016
Chuo University (Tokyo, Japan)
